PTO is meeting on the first Monday of every month at 6 o'clock pm in the elementary school library.

School Staff Goals for the Year:

Want to have portable computer carts, so the teachers are able to check out, but the school is in need of the projectors.

Memo comes with carrying case, wireless internet and an extra package of pens at a cost of \$600.00. This will be the program that will have to be purchased for the portable computers.

Year of Discovery 2009-2010:

Principle Phillips decides this year as the year of discovery, due to wanting to rid the school of the grade stigmatism, and help incorporate the no student left behind policy in greater detail. This could include an IEP for every student within the 2009-2010 school year, to help figure out where each student needs the assistance and extra help. Also, trying to rid the school of the grade levels so that students do not see that they are functioning below the grade level standards. Principle Phillips, did also state that when this starts to go into effect he and the teachers will take a trip to both Colorado and Minnesota where this system has already been tried and is working successfully.

Committee sign-ups are going on if anyone wants to volunteer their time please let one of the PTO Board Member know.
